

**Quadrennial Energy Review
Second Installment
Electricity: Generation to End-Use
Stakeholder Meeting #4: Des Moines, IA
May 6, 2016
State Historical Museum of Iowa
600 East Locust Street**

Des Moines is the third of six regional QER public input meetings, all of which are based on wholesale market footprints as a convenient approach to capturing and assisting the Interagency QER Task Force in understanding the nation's regional electricity diversity, which is also characterized by differing resource mixes, state policies, and a host of other factors. The Des Moines meeting covers the footprint of the twenty states which are, all or in part, in the Southwest Power Pool (SPP) and the Midcontinent Independent System Operator (MISO).
